REFRACTION SERVICE AND FEE

One of the most important parts of your eye exam today is the refraction.

That is the part of the exam by which we determine whether you can be helped in any way by a new glasses prescription. It is also how we determine the best possible visual acuity and function of your eyes, which is essential medical information for us to have, as we assess your eyes and look for problems. It is NOT a covered service by Medicare and many other insurance plans. These plans consider a refraction a "vision" service, not a "medical" service. Unless your plan automatically covers the refraction charge, this fee is collected at the time of service in addition to any co-payment your plan may require. Please check your Explanation of Benefits to see if your insurance plan paid for the refraction. If your plan did pay for the refraction, please let us know and we will reimburse you accordingly. Our fee for a refraction is \$76.00. If paid on the day of your appointment, the fee is reduced to \$55.00.

If you do not have the refraction on the day of your exam, you will not be able to receive your current eye glass prescription.

PATIENT ACKNOWLEDGEMENT

I have read the above information and understand that the refraction may be a non-covered service. I accept full financial responsibility for the cost of this service and understand it is due at the time of service. I understand that any co-payment, coinsurance or deductible I may have are separate from and not included in the refraction fee.

(By signing this you acknowledge that you understand our policy.)

We now offer an alternative for dilation when having your eye exam.

We have a High Speed Camera (OPTOS) that takes a picture of the back of your eyes in several seconds, that will give the doctors the information they will need to complete your eye exam in half the time. Your vision will not be affected.

Not all patients are a candidate for this procedure. **If you have a medical condition such as cataracts, glaucoma, diabetes, retinal issues, etc, you are NOT a candidate for the Optos.** If you are able to choose this option, there is an out-of-pocket expense of \$39.00 (this is not covered under insurance).
