Dear Patient,

Attached is paperwork for you to complete and bring with you when you arrive for your appointment.

Please arrive 20 minutes prior to your appointment with your completed paperwork, allowing us time to enter your information.

Please be sure to complete each page and sign where required and please bring your driver's license and current insurance card (s) as we'll need to scan and enter all information into our computer system.

If you arrive at your scheduled time without completed paperwork, your appointment may need to be rescheduled.

Thank you very much for your cooperation.

Enjoy the day.

REFRACTION SERVICE AND FEE

One of the most important parts of your eye exam today is the refraction.

That is the part of the exam by which we determine whether you can be helped in any way by a new glasses prescription. It is also how we determine the best possible visual acuity and function of your eyes, which is essential medical information for us to have, as we assess your eyes and look for problems. It is NOT a covered service by Medicare and many other insurance plans. These plans consider a refraction a "vision" service, not a "medical" service. Unless your plan automatically covers the refraction charge, this fee is collected at the time of service in addition to any co-payment your plan may require. Please check your Explanation of Benefits to see if your insurance plan paid for the refraction. If your plan did pay for the refraction, please let us know and we will reimburse you accordingly. Our fee for a refraction is \$60.00.

If you do not have the refraction on the day of your exam, you will not be able to receive your current eye glass prescription.

PATIENT ACKNOWLEDGEMENT

I have read the above information and understand that the refraction may be a non-covered service. I accept full financial responsibility for the cost of this service and understand it is due at the time of service. I understand that any co-payment, coinsurance or deductible I may have are separate from and not included in the refraction fee.

(By signing this you acknowledge that you understand our policy.)

We now offer an alternative for dilation when having your eye exam.

We have a High Speed Camera (OPTOS) that takes a picture of the back of your eyes in several seconds, that will give the doctors the information they will need to complete your eye exam in half the time. Your vision will not be affected.

Not all patients are a candi	date for this procedure. If yo	ou have a medical	condition such as
cataracts, glaucoma,	diabetes, retinal issue	s, etc, you are NO	T a candidate for the
Optos. If you are able to	choose this option, there is a	an out-of-pocket expen	se of \$39.00 (this is not covered
under insurance).	Yes	No

IF YOU CURRENTLY WEAR CONTACT LENSES:

You have the option of having your contact lenses evaluation during your complete eye exam today. This service is not included in the exam but is a very important step in maintaining your eye health. One of our doctors will evaluate the fit of the lens, the condition of the lens and the change in the power of the lens, if needed. The power is usually different than that of your glasses. Improper fit of the lens can cause various problems including damage to your cornea. We will check to see if your lenses have any rips or tears and will check the cleanliness of the lenses.

If you do not have your contact lenses with you, we will be happy to re-schedule this evaluation for you at the check-out desk today.

The cost of	this contact lens evaluation is \$50.00 and is not	covered by mos	t insurance o	companies.
	Yes, I do want a contact lens evaluation.			
	No, I do not want a contact lens evaluation; therefore, I will not receive an updated Contact lens prescription.			
	If interested in a contact lens fitting, please be advised that this requires a separate appointment and fee.
